

IRIS[®]

HIGH DEFINITION IRIS HD

USB 3.0 Intraoral Camera

**Introducing
IRIS HD USB 3.0
Intraoral Camera
Experience the Clarity.**

The new IRIS HD USB 3.0 brings the smallest details into brilliant full-screen high-resolution focus. With dual capture buttons and one-touch focus, control is always within reach. IRIS HD even knows to turn itself on and off when you pick it up or set it down.

Extreme clarity in HD is obtained with the IRIS HD precision optical lens array and Sony's advanced HD sensor for the finest picture quality.

FOCUS

A touch of the button and the newly designed electronic focus will advance automatically to the next focus mode. All five positions are shown onscreen.

Equipped with a motion sensor, it will Auto-On when lifted and Auto-Off after ten minutes of inactivity. The streamlined soft-tip has brilliant 8-point LED lighting and a new tapered USB 3.0 connector that fits in a standard delivery unit.

**IRIS USB 2.0
Intraoral Camera
The Industry Leader.**

Bring the power of the IRIS USB 2.0 Intraoral Camera into every operatory. This industry leading camera is a precision optical instrument that features an easy to use 5-point Focus Wheel and a unique USB connector that fits in a standard delivery unit. It is compatible with over 45 practice management software programs for easy integration with office systems.

The elegantly streamlined profile has a smaller, specially designed soft-tip with brilliant 8-point LED lighting and Sony's Hi-Resolution CCD for the finest picture quality. Best in its class.
