DUAL WATER BOTTLE SUPPLY SYSTEM

Post Mount	50-135-00
Wall Mount	50-137-00
Under the Counter Mount	50-139-00

- If your doctor is asking for more water capacity, but the assistant has a hard time holding and threading a large bottle full of water onto the existing clean water system, this dual system will solve both of their needs.
- This clean water system utilizes two 750 ml heavy duty HDPE bottles that operate independently of each other with toggle control valves. One bottle may be pressurized and in service while the other bottle is removed for cleaning or refilling, with pressure gauge reading bottle in use. This system also provides plumbing to facilitate use of an air purge, with the selector toggle to switch from bottled water to air purge or vice versa.
- Asepsis Housing for easy cleaning
- Sterling color
- Includes mounting hardware, supply tubing and installation instructions

IMPORTANT! AUXILIARY CLEAN WATER SUPPLY SYSTEMS ARE NOT RECOMMENDED FOR USE WITH WATER HEATERS

NOTE: *Vibration from dental handpiece turbines is absorbed by O-rings or quad rings. These O-rings and quad rings eventually breakdown, making the turbine sound like it has worn or defective bearings. By replacing these O-rings or quad rings, the turbine may sound normal again, this may also extend the life of the bearing.*
