

Patient Workflow **MATTERS!**

Orchestrate your Patient-flow like Experts

TXT / IM

- No fumbling for canned messages
- No searching for TXT box on a busy display screen

Earpieces

- No overheard conversations
- No dead batteries
- No flailing arms on tangled wires

Sneaker-net / Yell-net

- No more running around trying to locate staff members.

Utilize the full capacity of your practice and eliminate patient-flow frustrations!

With KelKom, you'll get the workflow guidance you need in **ONE second** from a **single glance across the room (SM)**.

Avoid distractions from *Reading, Typing, Talking or Mousing* by using our crisp, patent pending KelKom message approach.

Stop wasting time using communication gimmicks like frivolous, time wasting user interface designs or do-it-yourself panels.

HIPAA / PIPEDA Compliance means no personally identifiable patient data ever traverses our network!

DigitalKELKOM™ Advanced System
Software platform creates Kelkom panels on a variety of computer devices all running the KelKom App.

DigitalKELKOM™ Basic System
Hardware components place a wired, hardware panel in each location where you need communications.

DigitalKELKOM™ Software
Features cover a broad spectrum of immediate response and workflow management communication.

All cloud data communication complies with PCI-DSS, NIST & HIPAA data encryption security standards.

"KelKom allows us to see one more patient per room per day!"
