

Expand your possibilities

*Preference ICC® sterilization center streamlines the flow of materials from treatment room to sterilization center to treatment room.*

*The pass-through option on the Preference Collection® 5580 allows your staff to collect and replace materials without disturbing procedures.*

# Dependable solutions designed for you

Your success is our passion. You'll notice it in the solutions we provide. Every detail designed to help you work more comfortably. More efficiently.

Whether you're looking to upgrade your delivery system or remodel your entire practice, there's an A-dec solution designed to meet your current needs with the ability to easily upgrade as your practice grows and your needs change.

Comfort-engineered chairs. Delivery systems with true integration. Lightweight handpieces and motors. Cabinetry that streamlines workflow. Discover the solutions that expand your possibilities.

# Why choose A-dec

We've been partnering with doctors for over 45 years to produce reliable, creative dental solutions. Here are just a few of the reasons why so many dental professionals continue to choose A-dec.

**Quality and reliability.** We have a reputation for creating the most durable and reliable dental equipment. This is due largely to our dedication to quality plus our focus on simple design, which results in robust equipment that requires minimal maintenance.

**Ergonomics and efficiency.** A-dec offers a wide choice of equipment. No matter how you and your team work, we have solutions that maximize ergonomics and increase efficiency.

**Functionality and expandability.** A-dec equipment seamlessly integrates many ancillary devices you control via touchpad and/or foot control. This saves time and reduces clutter. The sophisticated platform design supports future upgrades and expansion.

**Comfort and style.** Through the science of pressure mapping, A-dec engineers increased chair comfort by reducing pressure points and streamlining support across the entire body.

**“The dentists who keep their offices up to date with technology and equipment are also the dentists who bring more dollars to the bottom line.”**

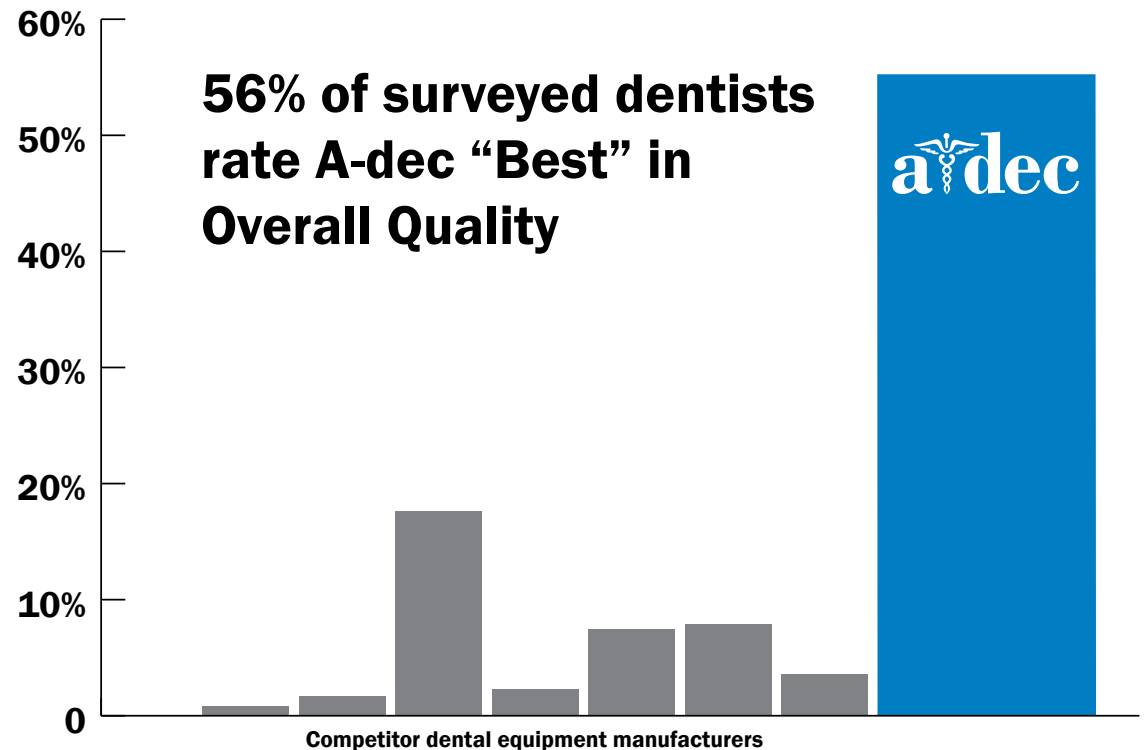

**Bob Creamer, CPA and President  
Creamer & Associates**

## A smart investment

As you know, equipment quality has a direct impact on profitability, just like the true cost of equipment goes well beyond the purchase price.

While it's nice to be recognized by an independent survey\* that ranks A-dec quality well above the competition, the bigger point is understanding how every equipment purchase impacts your bottom line. For A-dec, it begins with meticulous engineering and advanced manufacturing, and continues with unparalleled service and support through the life of the product.

Because dentists, hygienists, professors, and students depend on A-dec equipment in more than 100 countries around the world, we're wherever they need us to be—a commitment backed by a network of service and support specialists dedicated to minimize downtime and maximize the life of your A-dec solution.

[\*] Source: 2013 SDM double-blind survey; 56% of at-large dentists rated A-dec “Best” in Overall Quality Dental Equipment.

# An award-winning thanks

Our passion is supporting your success. Since 2003, the online community of *Dentaltown* has been nominating the industry's preferred products through their *Townie Choice Awards*. Every year, doctors express their trust in A-dec solutions by granting top honors for patient chair, delivery system, stool, light, dental cabinetry, and waterline care. While winning six treatment-room categories puts A-dec in a class by itself, the real credit goes to the dentists, hygienists and assistants we learn from every day.

Since the first *Dentaltown Townie Choice Awards*, dental professionals have voted A-dec *best in class* across six dental equipment categories.

## Treatment room solution #3

### Configuration Benefits:

- For the ultimate in patient comfort, the A-dec 500 chair with sewn upholstery reduces pressure points and provides support across the patient's entire body
- Put your patients at ease with the A-dec 500 side delivery system that easily tucks away so it's out of the patients' direct view when they enter the room—it's also an excellent solution for narrow treatment rooms
- Customize instrument positioning for increased efficiency with the A-dec 500 long-arm assistant's instrumentation

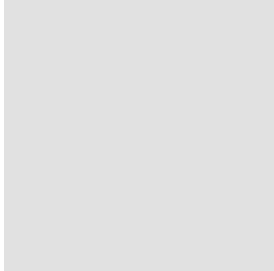

### Featured Equipment:

- A-dec 511 chair with sewn upholstery
- A-dec 542 side delivery system with A-dec 500 deluxe touchpad
- A-dec 545 worksurface only
- A-dec 551 4-position assistant's instrumentation (long arm) with Satelec Auto-Focus curing light
- A-dec 561 support center, cuspidor, and monitor mount
- A-dec 571 dental light
- A-dec 1601 doctor's stool with ergonomic tilt
- A-dec 1622 assistant's stool
- Preference Collection 5580.42 treatment console with solid surface countertop and monitor mount
- Preference Collection 5531.72 accessory console with round-end wash station and solid surface sink
- Preference Collection 5731.34 upper storage unit
- Preference Collection 5730.29 dispensing unit
