

## A-dec Ortho Pedestal

*This is a sanctioned non-standard product offering that can be quoted using this document, but ordered through A-dec's ETO work flow as a package solution. Lead times are quoted by A-dec on a project by project basis*

**All pricing US Dollars. Pricing expires 12/31/2017**

**The pedestal and delivery system are only available as a package solution.  
The delivery system is not available for sale without the pedestal and vice versa.**

**Pedestal Standard Features:**

- Product styling derived from Preference Collection
- This is a floor mounted pedestal. There is no mobile option.
- The pedestal can accommodate mounting of a dental light and monitor
- The pedestal includes Quartz countertop as standard.
- Solid Surface countertops are possible but require a seam to construct the depth of countertop needed. There is no credit for 'downgrading' to solid surface as the manufacturing cost to seam is significant.
- Slide-out Keyboard Shelf
- 6 metabox drawers
- Powder Coated metal subbase

**Delivery System Standard Features:**

- Articulating delivery system arm
  - o Parks unit out of the way when not being used
  - o Approximately 18" of articulation
  - o Two air only handpiece positions
  - o Adjustable air coolant
  - o Individually adjustable water coolant
  - o High volume evacuator (HVE), QD syringe, and saliva ejector (SE)
- 2-liter self-contained water system with quick-disconnect water bottle
- Wet/dry Disc foot control

**2017 Pricing** *(All amounts are retail for quantity one unless otherwise stated)*

**Base Pedestal & Delivery System** **\$8,200 ea.**
