## CERTIFICATE OF WARRANTY

THIS WARRANTY IS GIVEN IN PLACE OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE.

Under no circumstances shall Parker Hannifin Corporation be liable for incidental or consequential damages as those terms are defined in the uniform commercial code.

Parker Hannifin Corporation, Porter Instrument Division warrants that each product or part shall be free from defects in workmanship and materials, under normal use and with appropriate maintenance, for one (1) year from the date of delivery to customer unless otherwise specified in writing. All rubber and plastic parts and accessories are warranted under the same conditions for a period of ninety (90) days from date of purchase.

No statement or claim about the product by any employee, agent, representative, or dealer of Parker Hannifin Corporation shall constitute a warranty by Parker Hannifin Corporation or give to rise to any liability or obligation of Parker Hannifin Corporation.

Parker Hannifin Corporation shall not be liable for any damage, injury or loss arising out of the use of the product, whether as a result of a defect in the product or otherwise, if, prior to such damage, injury or loss, the product was (1) damaged or misused; (2) repaired, altered or modified by persons other than Parker Hannifin Corporation; (3) not installed in strict compliance with applicable codes and ordinances; or (4) not installed by an authorized Parker Hannifin Corporation dealer. Parker Hannifin Corporation's obligation for breach of this warranty, or for negligence or otherwise, shall be strictly and exclusively limited to the repair or replacement of the product or part. This warranty shall be void on any product on which the serial number has been altered, defected or removed.

**ORDERS** All orders are to be made through authorized Parker Hannifin Corporation distributors. All billing will be done through said distributors. Direct orders will be handled through the authorized local dealer as determined by Parker Hannifin Corporation.

with Universal Mask; 10 foot Hose; Mobile  
Cart; Regulator and Yoke; and Porter Connection

The Porter/O-TWO Demand Valve Resuscitator provides a fast, simple and effective means to ventilate non-breathing patients and provides 100% oxygen on Demand.

Designed to meet the varying requirements of the Emergency Medical Services/Rescue Personnel, it is the only Demand Valve Resuscitator that comes standard with an Audible Pressure Relief System and sensitive Manual Ventilation Button, conveniently located on the front of the resuscitator. The Manual Ventilation Button helps to ensure a patient airway by enabling both hands to remain on the mask to facilitate a superior mask to face seal (without having to deal with cumbersome trigger levers or inconveniently located top buttons).

The Manual Ventilation Flow rate is fixed at 40 lpm in line with the 1992 American Heart Association Recommendations and Guidelines for Resuscitation.

During spontaneous respirations, the Demand Valve Resuscitator is designed to provide 100% oxygen to a breathing patient with minimal respiratory effort. The oxygen demand flow is controlled by the patients inspiratory effort, with flow rates up to 160 lpm, to accommodate their own respiratory distress situation.
