Dear Valued Partner,

I am pleased to introduce the new 2011-2012 catalog featuring over 200 new products! Featured products include A-dec® 500 & 300 Series parts, replacement LED bulbs, a scaler section & the brand new design of the Series IV flex arm. In keeping with our commitment to offering the highest quality products at an excellent value, we lowered the price on over 250 products to better serve your needs.

DCI International has a long tradition of providing the highest quality syringes & vacuum valves. Now we are introducing the next generation – the Precision Comfort™ Series – with innovative features designed to make dentistry easier and more comfortable.

The syringes blend a patented ergonomic design & Precision Touch™ button technology, allowing practitioners to more precisely control and deliver the amount of air and/or water they want to use.

The Precision Comfort™ Vacuum Valves incorporate the contemporary, patented design style of the new Precision Comfort™ Series. The valves have been reengineered for ease of operation featuring the new larger ergonomic levers for smooth activation with gloves.

Thank you for your continued support and for being part of the DCI family that has been serving the dental industry for nearly 30 years.

Kind regards,

Jason Spencer
President

Introducing the Precision Comfort™ Syringe

The next generation of DCI syringes – the Precision Comfort™ Series – is a response to what dental professionals have asked for. The syringes blend a patented ergonomic design & Precision Touch™ button technology, allowing practitioners to more precisely control & deliver the amount of air and/or water they want to use.

Precision Touch™ Buttons

New Precision Touch™ Buttons improves ergonomics & reduces hand fatigue.

- 45% Softer Buttons
- 30% Increased Angle
- 20% Increased Button Size

Patent Pending Precision Touch™ Buttons deliver water (one drop to a full stream) – air (one puff to a full flow) – or a combination of both.

Ergonomic Finger Rest

Comfort fit designed to reduce hand fatigue

Quick-Change Tip

- Quick & easy tip removal w/o the need for tools
- Securely locks tip in place for peace of mind

Indexing Tip

Creates added resistance when rotating tip to facilitate retraction

Introducing the Precision Comfort™ Vacuum Valves

The Precision Comfort™ Vacuum Valves incorporate the contemporary, patented design style of the new Precision Comfort™ Series. The valves have been reengineered for ease of operation featuring the new larger ergonomic levers for smooth activation with gloves.

Smooth Adjustment Lever

Larger ergonomic metal levers facilitate smooth, comfortable activation

Easy to Clean

Single piece lever & spool design is easy to clean

Easy Tip Insertion & Removal

New angled opening makes tip insertion & removal easier and quicker

Debris Prevention Guard

Vacuum Valve swivel guard prevents debris from blocking vacuum hose

Vacuum System Cleaner

5835

- Continuous cleaning action
- Environmentally safe
- Contains NO hazardous materials
- Non-Toxic, non-pathogenic
- Non-corrosive liquid; safe to handle & store
- Easy to use, measured 1 pint dispenser holds 32 applications
- 1/2 gallon dispenser holds 128 applications

Eco Vac cleans vacuum systems and eliminates odors associated with organic waste by biologically degrading the waste into natural elements. Cleans and deodorizes without foaming or use of harsh chemicals. Eco Vac utilizes safe non-pathogenic, non-opportunistic, Class 1 bacteria.

One half ounce of Eco Vac mixed with one quart of warm water, drawn through the vacuum lines daily in each operatory, establishes a continuous biological action.

DCI Cartridge Valves

The Cartridge Valve product line consists of a complete assortment of normally closed and normally open styles, on-off, routing and momentary, in both 3-way and 2-way. They are available in toggle, push button and roller activation.

The perfect valve to replace existing valves in your current equipment. The cartridge design allows for very simple and quick repairs in the field. No need to go through the difficult task of removing and replacing the whole valve. A quick turn of the cartridge allows for simple removal and another quick turn with the replacement cartridge gets you back up and running. It's as simple as that.

- Removable cartridge insert
- Will replace most OEM valves
- Color coded cartridge for easy identification
- Increased flow
- Quick & simple 60 degree turn to remove or insert

Valve Replacement Cartridges

The great advantage of using the DCI Cartridge Valve is the ease of maintenance over the standard OEM valves available.

The replacement valve is made up of a valve stem, cartridge body and actuator (toggle, push button, or roller). The cartridge body can be placed in four different positions within the valve body allowing for better tubing and barb clearance. The cartridge body is molded in different colors that identify their function:

Blue = 3-way NC **Brown = 2-way NC**
Green = 3-way NO **Red = routing valve**

- Color coded cartridge for easy identification
- Increased flow
- Quick and simple 60 degree turn to remove or insert

A-dec® Century Plus Handpiece Control Assembly

The A-dec® Century Plus Handpiece control block is used in automatic systems to control the routing of coolant air, coolant water and drive air to the handpieces and scalers. To facilitate on-site service, each Century Plus Control block includes three cartridges (water valve, handpiece flush, and air bleed). These cartridges are accessed from the underside of the dental unit. This allows you to easily replace parts without removing covers or the control block assembly from the unit.

DCI offers a complete Century Plus Control Block Service Kit, P/N 9154 for all of your service needs.

These parts are manufactured by DCI International to fit A-dec® Equipment.
