Dear Valued Customer:

As a global leader in products for the mechanical room and digital diagnostics, we at Air Techniques are proud of our 60 year heritage of delivering reliable products and support to dental professionals throughout the world.

Whether a single practice, large clinic or university, our products are engineered to keep up with the demands of your dental practice.

We appreciate the opportunity to help power your practice and ensure that you are "Equipped for Life."

Our NY corporate headquarters is home to our in-house, state-of-the-art training facility. There we ensure that field technicians and trusted dealer partners receive expert training to provide you with the best field service.

Our continued focus on high-quality, high performance and innovative technology enables us to provide the most reliable products that improve the end-user experience and enhance their return on investment.

From Digital Radiography, Cameras & Caries Detection, X-ray Systems, Air Compressors, Vacuum Systems, and Infection Prevention – we offer a full palette of options of performance, innovative and reliable solutions to fulfill the widest range of needs.

Air Techniques' skillful Engineering Team, knowledgeable Sales Representatives, and Customer Care team are all prepared to help you operate a more profitable business and deliver the best oral health care to your patients.

We look forward to supporting you with unparalleled customer service and support.

Scott Borden  
VP of Sales

Esteban Reinhart

### THE HYBRID SOLUTION

**BEST OF BOTH WORLDS, brought together with accuracy and precision of the ProVecta HD.** If you are looking for speed, comfort and quality, the SensorX and ScanX combination is here! This “Hybrid Solution” clearly demonstrates the mindset that sensors and PSP technology are not mutually exclusive. By using both technologies together, you get the best of both worlds and exceed the wide-ranging intraoral X-ray demands for 100% of your patients.

**Peri-Pro III**  
(Shown with Daylight Loader)  
PN 94000DL

**Daylight Loader**  
PN 90090

PART NO.	DESCRIPTION	PRICE IN \$
<b>45005</b>	<b>A/T 2000 XR w/Chemistry</b> Includes: 1 leveling base, 1 bottle spray 2000 Plus, 4 Air Techniques cleaning films, 1 instructional DVD, 1 case chemistry (PN 40270), 1 bottle of starter (PN 40280). Electrical: 115 Volts, 60 Hz, 8 Amps Dimensions: 14.25" x 15" x 26" (W x H x D) Weight: 75 Lbs. Water Pressure: 80 psi max. / 30 psi min. Water Flow: 1/2 gallon per minute (while processing film)	<b>14,995.00</b>
<b>45110</b>	<b>Daylight Loader for A/T 2000® XR</b> Allows processor to be installed outside the darkroom. Fits A/T 2000, A/T 2000 PLUS and A/T 2000 XR Dimensions: 16.25" x 21.50" x 13.75" (W x H x D) Color: Grey	<b>2,315.00</b>

PART NO.	DESCRIPTION	PRICE IN \$
<b>94000</b>	<b>Peri-Pro III: 115V, 60Hz</b> For automatic chemistry temperature control. Includes: 1 case chemistry (PN 90800) Film Carriers: 3 Pedo film carriers, 2 adult anterior film carriers, 2 bite-wing film carriers, 1 occlusal film carrier Electrical: 115 VAC, 5 Amps. Dimensions: 25" x 8.5" x 10" (W x H x D). Weight: 22 Lbs. Processing Capacity: Accepts 8 #2 films, or carriers loaded with 0, 1, 3, or 4 films Processing Time: 5 minutes	<b>5,135.00</b>
<b>94000DL</b>	<b>Peri-Pro III w/ Daylight Loader; 115V, 60Hz</b> For film processing inside or outside a darkroom. Dimensions: 25" x 15.75" x 10" (W x H x D). Weight: 23 Lbs.	<b>5,675.00</b>
<b>90090</b>	<b>Daylight Loader for Peri-Pro</b> For film processing inside or outside of a darkroom. Attaches to the cover of all Peri-Pro models.	<b>585.00</b>

### Optimally suited for continuous operation of milling and grinding machines

The constant, uninterrupted flow of compressed air required by milling and grinding machines makes for very long compressor duty cycles. Compressors with simple desiccant dryers are thus not suited to run such machines. Air Techniques' fully developed membrane-drying technology eliminates regeneration times and is designed for continuous operation. A constant supply of dry, compressed air in continuous operation is guaranteed, so your milling process is never interrupted.

	<b>DESCRIPTION: TANDEM KITS</b>	
	For installations with multiple AirStar units to work as a single system.	
85694	<b>AirStar Classic Tandem Installation Kit</b> Connect 2 compressors to work as one unit.	474.00
85690	<b>AirStar Classic Multiple Compressor Install Kit</b> Connect 3 or 4 AirStars Compressors to work as one unit.	3,087.00

## EQUIPMENT MOJAVE DRYSTAR MONITOR DRY VACUUMS

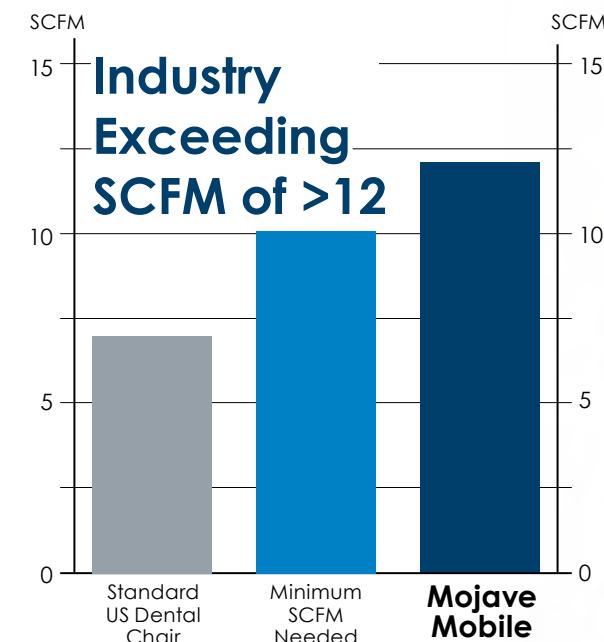

**MOJAVE<sup>®</sup>**  
DRYSTAR MONITOR

**NEW**

Mojave DryStar Monitor LT5  
PN LT5M

## MOJAVE<sup>®</sup> MOBILE

A Standard US Chair has a suction performance of about 7 SCFM due to small piping, the control box, delivery unit, hose size and HVE diameter. To reduce the risk of an infection a minimum of 10 SCFM is needed. The powerful Mojave Mobile has the best performance available with more than 12 SCFM.

## FLOWSTAR

- Soft inner hood improves seal and patient comfort
- Clear outer hood sits closer to the patient's face, increasing scavenging efficiency of exhaled gases and allowing visual monitoring of patient's breathing
- Latex-free material protects patients and staff who have latex allergies
- Double hood design minimizes ambient nitrous oxide in the operatory
- Air Techniques Nasal Hoods utilize an oval exhalation valve that directs exhaled gases to the built-in scavenger "flow channels", maximizing efficiency. US patented\*
- Universal fit with other double tubing scavenging circuits allows for use of your existing systems with the new Air Techniques Double Nasal Hoods
- Smaller profile provides improved "sight line" visibility for the dental staff and therefore allows better access to the oral cavity
- The softer inner hood seals to the face to ensure proper gas delivery to the patient

As awarded by  
The Chicago Athenaeum:  
Museum of Architecture  
and Design

## DIFFERENT AT FIRST SIGHT

### THE NEW DOUBLE NASAL HOOD

From Air Techniques - The Market Leader in Air & Vac

#### Patient Comfort

Softer and more flexible for an exceptional seal and comfort

#### Safety for Staff

Oval design of the exhalation valve for ideal scavenging, US patented\*

#### Size Matters

Lower profile for a better access to the patient

### Bringing Nitrous Oxide/ Oxygen Sedation to the next level with multiple innovations

- Colorful and lightly scented single use hoods engage and delight patients of all ages
- Pediatric and adult sizes available in a variety of scents
- Compatible with Accutron, Porter and Belmed double tubing scavenger circuits and with most nitrous oxide / oxygen flowmeters.

Also available: Scavenging circuits and autoclavable hoods

\*US Patented: US D875,240, US D875,239, US D875,238

PRODUCT	FULL SYSTEM WARRANTY PERIOD	SPECIFIC COMPONENT WARRANTY PERIOD
All Products	24 months	n/a

Each "Monarch" branded product and other hygiene product is warranted to be free from defects in material and workmanship through to and including its expiration date.

All product and component warranty returns require a Return Materials Authorization (RMA). Returns must be received within ninety (90) days of the RMA issue date and in appropriate packaging to prevent shipping damage. Products or components returned without an RMA, or included with other products or components for which an RMA has been issued, will be returned to the customer at the discretion of Air Techniques' and at the customer's cost.

Any item returned and covered under warranty, will be repaired (excluding Monarch and other hygiene products) or replaced at Air Techniques' option at no charge to the customer. This is the customer's sole remedy for products or components returned under, and covered by, warranty. Air Techniques is not liable for any indirect or consequential damages or loss of any nature in connection with any defective or damaged products or components. Dealer labor, shipping and handling charges relating to the warranty return of products or components are not covered by this warranty.

Products or components returned under warranty that exhibit damage due to shipping, misuse, careless handling, improper installation or repairs or service by a Dealer or by other unauthorized personnel, abnormal physical stress, abnormal environmental conditions or use contrary to the products' or components' specifications or operating instructions are not covered by warranty. The warranty is void if the product or component is installed incorrectly or installed or serviced by anyone other than authorized Dealer or other Air Techniques' authorized personnel.

Credit, or partial credit, will not be issued until the products or components have been received and assessed by Air Techniques. If, after the evaluation by Air Techniques, it is determined that there is no-fault found and the product or component is working in accordance with its specifications, the product or component will be returned to the customer at the customer's cost, and no credit will be issued.

This warranty is in lieu of all other warranties expressed or implied. No representative or person is authorized to assume any liability on behalf of Air Techniques in connection with the products or components.

If a customer requests the replacement of a product or component returned under warranty in advance of Air Techniques' receipt and evaluation of the returned Product, Air Techniques will provide the replacement product or component to the customer at full invoiced price. If the returned product or component is found to have a fault covered by warranty, the invoiced price of the replacement product or component will be credited to the customer. If no-fault is found, the customer shall pay the invoice for the replacement product or component.

## Online Warranty Registration

Quickly and easily register your new Air Techniques product online. Just have your product model and serial numbers available. Then go to the Air Techniques' website, [www.airtechniques.com](http://www.airtechniques.com), click the Warranty Registration link and complete the registration form. This on-line registration ensures a record for the warranty period and helps Air Techniques keep you informed of product updates and other valuable information.

## ProVecta S-Pan, S-Pan Ceph, 3D Prime and 3D Prime Ceph Extended Parts Warranty

Purchase of this optional extended parts warranty (36mo. of additional coverage of x-ray sensor(s) and generator) must be done by or before 1 month from date of installation. Purchase Order must include model and serial number of unit to be covered, clinic contact information, dealer contact information. Coverage is limited to the parts mentioned beyond the Full System Warranty Period.

## Returns for Credit

Products and components cannot be returned after 6 months from the original invoice date. Returned products or components, other than warranty returns, must be new, unused, and factory sealed in original packaging with tamper-proof seal intact. Products which are returned for credit are subject to a minimum charge of 15% of the purchase price thereof to cover inspection, damage in transit, reconditioning and repacking.

## Certain Products and Components Are Not Eligible for Return for Credit

Consumables e.g. Accessory Kits, "Monarch" and other hygiene products, customized products and components, and products or components with a value of less than \$50 per item are not returnable.

## Returns in General

Returns of products or components, other than warranty returns are subject to Air Techniques' authorization, which may be given or withheld at Air Technique's discretion. All products or components returned require a Return Materials Authorization (RMA) from Air Techniques. Products or components returned without an RMA, or included with other products or components for which an RMA has been issued, will be returned to the customer at Air Technique's discretion and at the customer's cost. Returns must be received within ninety (90) days of the RMA issue date. Returns of products or components that exhibit damage due to shipping, misuse, or careless handling will not be accepted, and no credit will be given for those. Credit, or partial credit, will not be issued until returned products or components have been received and compliance with the above returned product or component requirements has been verified. Transportation charges on returns must be prepaid by the customer. Risk of loss with respect to returned products or components shall remain with the customer until received by Air Techniques.

## ProVecta Refurbished Products

ProVecta Products sold as refurbished are covered under a 1yr Full Systems Warranty, with the same coverage and limitations as the original Full Systems Warranty (see above) but running for 12mos. from the date of installation. If for any reason the original Full Systems Warranty has not yet expired, warranty coverage of the refurbished product falls under whichever provides the longer coverage, original 2yr Full Systems Warranty, or the additional 1yr warranty for refurbished products.

## Contact Information

For general and immediate questions, please call:  
Toll Free in the US and Canada: 1 – 800-AIR TECH (247-8324)  
Monday through Friday, 8:00am – 7:00pm (EST)

## Disclaimer

For Shipped Items – All freight costs are paid for by dealers, unless part of an approved promotion/program. All shipping damage is to be claimed through the carrier or dealer.  
For all non-warranty orders, less than \$100.00 for US dealers and \$150.00 for non US dealers, a \$25 handling fee in addition to any shipping charges will be applied.

# TRUST THE LEADER

## IN AIR & VAC FOR ALL YOUR DENTAL EQUIPMENT NEEDS

### MOJAVE<sup>®</sup> LT

Super quiet and designed to be 100% water-free, the LT eliminates the collection tank for a motor driven air/water separator providing 100% oil-free variable frequency driven performance all in a compact footprint.

### AIRSTAR<sup>®</sup> NEO

NEO delivers 100% ultra-dry, oil-free air using Air Techniques' exclusive Membrane dryer Technology combined with a multi-color touch screen display and fully integrated diagnostic monitoring system.
